Choose one of these three ways to determine your perfect ring size

JLS PAPER TEST

- 1 Cut out the paper sizer shown below and make a slit where indicated.
- 2 Slip the pointed end of the sizer through the slit and wrap the sizer around your finger.
- 3 Pull the end to create a snug (but comfortable) fit. Be sure you are able to slide the sizer back over your knuckle and off your finger.
- 4 Match up the slit with the number on the sizer to determine your ring size.
- 5 Double check for accuracy!

JLS STRING TEST

- 1 Cut a piece of string, ribbon, or thick thread
- 2 Wrap it snugly, but comfortably, around the finger you will wear your ring on. Tie it off or cut it at the appropriate spot.
(NOTE: Do not wrap the string too tight.
Have someone help you, if needed)
- 3 Measure the length of string and use the chart below to determine your ring size.
- 4 Double check for accuracy!

SSC RING TEST

- 1 Choose a ring that comfortably fits the finger you will wear your class ring on.
- 2 Match the inside edge of the ring to the appropriately-sized circle below (the circle should fit inside of the ring. If the ring is between sizes, select the larger of the two sizes).

- 3 Double check for accuracy!
